

Reading Strategies for Parents & Teachers

- ✓ Phonemic Awareness
- ✓ Phonics
- ✓ Fluency
- ✓ Vocabulary
- ✓ Comprehension
- ✓ Writing
- ✓ Motivation

Developed by Reading Specialist Brandi Felkowski, M.S.Ed.

Phonemic Awareness

Think: It can be done "in the dark"

A **phoneme** is a sound. Phonemes make words. Students with phonemic awareness understand that sounds make words. They recognize sound patterns and rhymes. They can move or change sounds to make new words.

For example:

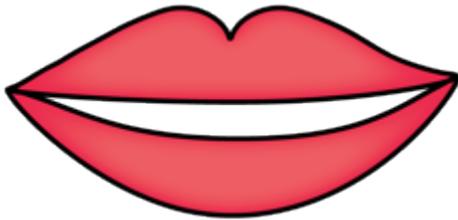

"mat" has 3 sounds -- /m/ /a/ /t/

Change first sound to make "cat"

Change the middle sound to make "met"

Change last sound to make "mad"

ABC

Phonics

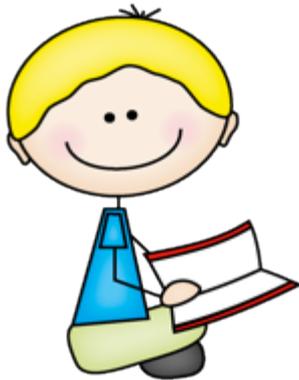

Think: sounds to symbols

Phonics links sounds and their written symbols (letters). Students with strong phonics skills notice the match between letters of the alphabet and sounds. They can identify the 26 letter names (uppercase and lowercase) and sounds. They know sounds made by letter groups. They identify words with similar beginnings, middles, and endings. They can find similar letter patterns.

For example:

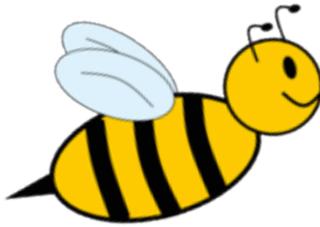

The letter Gg says /g/ as in "gate," "bigger" and "dug."

The letter group "sh" says /sh/ as in "she," "bashful," and "trash."

Ideas to Build Phonemic Awareness & Phonics

- Read aloud with your child every day.
- Practice identifying all letters of the alphabet & the sounds they make.
- Visit the library weekly.
- Talk about stories read.
- Tell each other stories.
- Recite riddles for your child to solve.
- Break up words, & have your child read each word part.
- Tell your child a word, & break it into syllables (enjoying= en/joy/ing)
- Give your child a word, & break it into sounds (cat = /c/ /a/ /t/)
- Have your child sort words into categories by sounds, # of letters, patterns
- Practice reading the sounds made by basic letter patterns

Ideas to Build Spelling Skills

Tactile Spelling Strategy: Have your child trace spelling words with the middle and index finger together in tactile materials, such as shaving cream, pudding, sand, colored sand, or salt. Glow-in-the-dark sand may be a fun alternative.

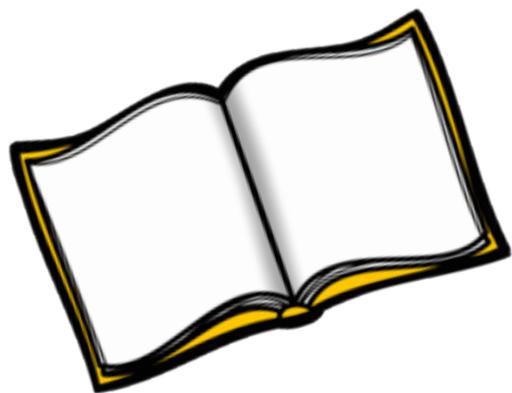

Cover/Guess/Check: Have your child fold a sheet of paper into three columns. In the first column, write, "Guess." In the second column, write, "Cover." In the third column, write, "Check." Have your child write the correct spelling of words in the first column. Have him/her cover the spelling and write a guessed spelling in the second column. In the third column, check the spelling.

Rainbow Writing: Have your child trace words in red and trace it again with another color, for five total colors.

Air Writing: Have your child air trace words with middle and index finger together, using wide sweeping movements.

Water Writing: Have your child write a spelling word with a wet paintbrush, on a chalkboard or tabletop. The child will rewrite that word on paper as many times as possible before it dries. Keep score for added fun!

Spelling Songs: Have your child sing the letters in spelling words to the tune of well-known songs, based on the number of letters in the word.

Reading

Fluency

Rate, Accuracy, Expression

Reading fluency is the ability to read accurately, with pace and expression. Students who read fluently recognize words automatically, which typically makes it easier for them to understand what they read. They pay attention to punctuation marks, such as periods, exclamation points, question marks, commas, quotation marks, and parenthesis. They read with pace and expression that reflects the tone and mood of the text.

Ideas to Build Fluency

- Read daily. Encourage your child to read silently, read to self, and read to family or toys.
- Encourage your child to repeatedly re-read familiar texts.
- Encourage your child to read texts across a variety of genres.
- Encourage your child to select texts about his/her interests.
- **Reader's Theater:** Your child will read aloud from a script, reflecting the characters' feelings, tone, and pace based on the mood. Write Reader's Theater scripts to act out.
- **Paired Reading:** Adult reads aloud while the child follows along. Then, the child reads while adult follows along.
- **Choral Reading:** Your child and others read aloud in unison.
- **Echo Reading:** Adult reads aloud. Child echoes back the same reading, following the text.
- **Tape Assisted Reading:** Your child may read aloud with a book on tape.
- **Timed "Hot" and "Cold" Reading:** Have your child read aloud for one minute. Count the number of words read correctly, and chart this number as the "Cold Read." Have him/her practice reading the same passage. Have him/her reread it. Count the number of words read correctly, and chart this number as the "Hot Read."

vocabulary

WORDS
& CONCEPTS

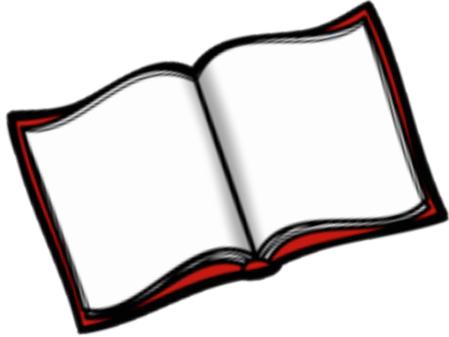

vocabulary is important for understanding text and communicating with others. Making meaning with vocabulary helps the reader understand the text.

Ideas to Build Vocabulary

- Cut photos out of magazines to learn new concepts. Sort into meaning groups.
- Play Memory/Concentration by writing vocabulary words and definitions on index cards. Turn each card facedown, and attempt to match words with definitions.
- Create flyers, brochures, stories, posters, scripts, skits, riddles, acrostic poems, or pictures containing vocabulary words.
- **Context Clues:** Read the other words and sentences surrounding the unknown word, read the sentence with a blank, and attempt to determine the meaning of the unknown word.
- **KIM Chart Graphic Organizer:** Identify the key Word, Information from the text (or definition), and a Memory clue (picture, word, etc.)

comprehension

comprehension is the level of understanding of a text. Readers with strong comprehension skills can understand, interpret, and extend a text.

Ideas to Build Comprehension

- “Think out loud” while reading to your child to demonstrate making connections, understanding, reacting emotionally, making predictions, and keeping track of information, .
- “Visualize,” or picture what is happening in the text— imagine how it would look, feel, sound, smell, taste, etc.
- Make predictions. Confirm or change them during reading.
- Determine importance of text events and details.
- Determine the author’s purpose for writing.
- Identify the main idea and supporting details.
- Make connections in the text. Connect the text to personal experiences and other texts.
- Summarize the text.
- Use the SQ3R Comprehension Strategy:
 - S= Survey the text
 - Q= Question about the text
 - R= Read the text (using reading strategies like visualization, main idea/details, author's purpose, inferences, making connections, etc.)
 - R= Recite the text (take notes, highlight key parts, answer questions)
 - R= Review the text throughout the week (study skills)
- Ask and answer questions about the text.

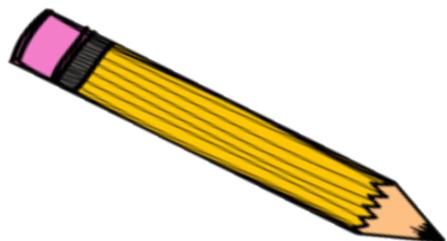

Questions to Build Comprehension

Ask your child questions while reading, and encourage him/her to ask questions while reading. Support answers with text evidence.

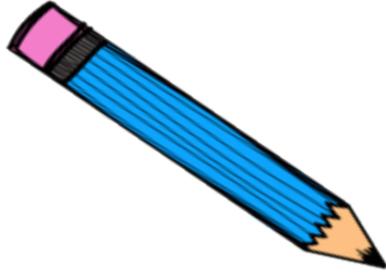

Sample questions:

- *Who is the narrator?*
- *Predict what will happen in the text.*
- *Confirm or change your predictions while reading.*
- *What was your favorite part? Why?*
- *Did this story remind you of anything?*
- *What was the problem? What was the solution?*
- *How would you change the ending?*
- *What would happen in a sequel to this story?*
- *Where and when did the story take place?*
- *Who were your favorite characters?*
- *Did the story remind you of another story?*
- *What words would you use to describe the story?*
- *Why did the author write this story?*
- *Why do you think the illustrator used this type of picture?*
- *Name three important events from the story.*
- *Retell every detail you remember.*
- *Summarize the most important parts.*
- *What was the story mostly about?*
- *Would you recommend this book to others? Why?*
- *Create your own questions to ask me.*

Writing

writing is an important method of communication. Writers write for many reasons— to persuade, inform, express, entertain, etc. Strong writers often use a variety of ideas, organization, voice, word choice, rhythm and flow, conventions, and professional presentation.

Ideas to Build Writing Skills

- Use the computer for writing.
- Encourage your child to keep a diary or journal.
- Encourage your child to write for a variety of purposes (e.g., letters, newspaper, announcements, invitations, posters, banners, signs, creative stories, scary stories, funny stories, narratives, descriptive writing, and how-to pieces).
- Set up a double entry journal with your child. Write to her, and have her write back. In each entry, write questions to encourage your child to reply.
- Help your child revise and edit her writing for punctuation, spelling, and content.
- Use the Four-Square Writing Strategy for paragraph writing. Visit <http://www.greenville.k12.sc.us/taylorse/About/Writing%20for%20Everyone.pdf> for details.
- Use the ACEE Writing Strategy for providing written answers to test questions. Visit <http://teacherweb.com/NM/BosqueSchool/BLazar/ACEStrategyrev2-09.pdf> for details.

Motivation

- Keep your child motivated to read and write.
- Encourage and provide positive feedback.
- Have a print-rich home. Hang posters with words, place letter and word magnets on the refrigerator, have written materials on hand, let your child observe you reading.
- Point out the text you see while driving, on road signs, businesses, etc.
- Read words that are shown on television commercials.
- Read and search for known letters or words on food labels or newspaper.
- Instead of criticism, use words that require continued growth, such as “You’re on the right track,” or “Try that again. This time use your strategy...”
- Provide materials that your child can read easily to build confidence.
- Re-read familiar texts.
- Incorporate your child’s interests.
- Provide your child with paper and writing utensils.
- Avoid using writing as a punishment.
- Have fun reading and writing with your child!
